

02 Course: Phlebotomy Basics

Modality: Self-Paced Learning

Duration:

"Phlebotomy Basics" is an introductory course designed to provide students with essential knowledge and skills in the field of phlebotomy. This comprehensive program covers the fundamentals of venipuncture, blood collection techniques, and proper handling of specimens. Through a combination of theory and hands-on training, participants will learn about infection control, patient safety, and the importance of accurate record-keeping, preparing them for entry-level positions as phlebotomists in various healthcare settings
